**METHODOLOGY AND APPARATUS FOR SUPPLY OF REACTANT
FLUIDS TO AND PURGING OF PRODUCT AND INERT FLUIDS
FROM CELLS OF FUEL CELL STACK**

Examiner: Yuan S.N. 09/552,419 Art Unit: 1745 August 13, 2001

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to a fuel cell system comprising valving structure to purge the system, classified in class 429, subclass 34.
 - II. Claims 21-40, drawn to a method of operating a fuel cell system comprising supplying fuel and oxidant to the inlets and purging fuel and oxidant at the exhausts, classified in class 429, subclass 12.

The inventions are distinct, each from the other because of the following reason:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method of operating a fuel cell system could be used to operate a coal-burning furnace.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
